AMENDMENTS TO THE SPECIFICATION:

Please amend the paragraphs at page 13, lines 9-17 as follows:

The video data are <u>decoded</u> ~~encoded~~ by a video decoder 604 after the video data are <u>decrypted</u> ~~encrypted~~ by <u>a decrypting</u> ~~an encrypting~~ module 603. The <u>decoded</u> ~~encoded~~ video data are then projected on a screen 607 by a projecting device 606 through a video signal output device 605.

On the other hand, the audio data are <u>decoded</u> ~~encoded~~ by ~~a~~ <u>an</u> audio decoder 609 after the audio are <u>decrypted</u> ~~encrypted~~ by <u>a decrypting</u> ~~an encrypting~~ module 608. The <u>decoded</u> ~~encoded~~ audio data are then sent to a loudspeaker 612 by an audio processor 611 through an audio signal output device 610.
